Hello Ex. 6 Personal Privacy (PP) (pchem and fate), Ex. 6 Personal Privacy (PP) (exposure), a whole slew of engineers (engineering)

Please populate your reports or QC to make sure that the correct reports are in the folder.

It sounds like this folder may have gotten initially filled long ago, so double check to make sure the correct versions are in the correct place, following the correct procedures correctly.

Have a good day

[REDACTED] was working on this. That is why [REDACTED] has looked at it. He is mentoring her.

I don't believe this was on our surge list. That is why there are no recent updates- we concentrated efforts (of all disciplines) on those. CCD has had our list for some time. As PMs notice their cases aren't included they are elevating. I act on those [REDACTED] flags, this included.

I am happy to meet with you today to discuss the case flow for surge cases.

I have asked [REDACTED] to complete this today...

Something not right about the RAD case flow; this case is in !RAD folder and seems to look like [REDACTED] might have looked at it once, but it is just sitting there???

It has to be done TODAY, so if [REDACTED] finds that other reports need updating (they were done in June most recently; don't know why wasn't finished then??
